# Executive Summary

 Stoke-on-Trent and Staffordshire is becoming an important location for Digital and Creative Industries and providing an important source of new talent.

- **A significant pool of labour.** With a population of over 1 million people and a population catchment of 2.7 million within a 45 minute drive time, companies based in Stoke-on-Trent and Staffordshire can access a considerable pool of labour.
- **An experienced skills base for Digital Industries enabling effective recruitment.** Over 4,500 people are employed in this industry in an area that is represented by a diverse range of companies from software developers to Internet Service Providers.
- **A track-record in attracting Digital Industries companies as well as growing home-grown talent.** Stoke-on-Trent and Staffordshire has a base of international companies including Instem and Navman Wireless.
- **A burgeoning Creative Industry, particularly in film and video production.** The relocation of a number of BBC divisions to Manchester, only an hour's drive away has encouraged the concentration of companies in this industry in Stoke-on-Trent and Staffordshire.
- **Local university strengths in Digital and Creative Industries.** Both Staffordshire University and Keele University have a strong course base in this industry, from undergraduate degrees to PhDs. This represents an important source of new local talent and has also led to a number of graduate based businesses in the area.
- **Proximity to other universities, further increasing the new talent pool.** The area's proximity to Birmingham, Manchester and Liverpool, all with universities with courses in digital and creative industry related subjects ensures that digital companies in the area have a wide access to a talented and skilled employment base.
- **A cost effective location.** Stoke-on-Trent and Staffordshire is a cost effective location, with wage rates more competitive than the national average, representing a potential cost saving of up to 15%.
- **A significant cost saving in office rentals, representing a saving of over 60% compared to other cities.** The average office rental in Stoke-on-Trent is over 60% less per sq. ft than in other cities such as Manchester and 57% less than Birmingham.
- **Stoke-on-Trent and Staffordshire has a diverse range of sites and premises suitable for the Creative and Digital industries.** There are a number of Business Park in the area providing a wide range of property options. This includes town centre options, out of town Business Parks and Keele University Science and Business Park which is already the base of number of Digital companies
- **A well connected location providing ease of access to a large client base.** Almost every UK city could be visited for a day's business by rail with a return trip the same day and London with a journey time of 1 hour and 15 minutes away. Birmingham and Manchester Airports are within an hour's drive of Stoke-on-Trent and Staffordshire.

# Introduction

 Stoke-on-Trent  
and Staffordshire  
has a diverse  
business base.

- Stoke-on-Trent and Staffordshire is centrally located in the UK. It is within 17 miles of Birmingham and 45 miles from Manchester. London is just 1 hour and 15 minutes away by train.
- Stoke-on-Trent and Staffordshire's central position and excellent transport infrastructure accounts for its large population catchment area. There are 2.76 million people within a 45 minute drive time, a significantly larger number than the catchment for Glasgow, Edinburgh, Cardiff, Bristol or Newcastle.
- The area is notably strong in manufacturing, employing over 54,500 people, representing 13.2% of the population. Compared to the national average of 8.8% and 12.4% for the West Midlands as a whole.
- Global manufacturers based in Stoke-on-Trent and Staffordshire include: Siemens, GE Power, Pirelli and Sumitomo Electric Wiring Systems. They represent manufacturing activity ranging from R&D in power converter technologies to automotive component manufacturers.
- As well as advanced manufacturing operations, ceramics is still a key sector in the area, representing 4% of the workforce in Stoke-on-Trent. As well as high end manufacturing, the ceramic skills base has attracted a growing number of specialised companies including Biocomposites and Mantec Technical Ceramics.
- The strength of the manufacturing sector combined with the area's outstanding motorway connections has led to Stoke-on-Trent and Staffordshire becoming a national hub for logistics and distribution, which has been further augmented through the growth of retail and, in particular, e-commerce national distribution centres. Over 23,800 people are employed in transport and storage.
- A number of international companies also have their global and UK headquartered operations located in Stoke-on-Trent and Staffordshire. Notably this includes JCB, Michelin, Bet365, Portmeirion and Alstom Grid UK.
- Stoke-on-Trent and Staffordshire has a growing Business Services sector, particularly in the area of computer programming which represents 1.4% of the employment compared to 1.3% in Birmingham. There are also a number of customer service centre operations including Vodafone, E.on, and Punch Taverns as well as multilingual customer service operations such as Bet365.
- Stoke-on-Trent and Staffordshire has been successful in securing both new investment and re-investment. This includes recent new investment by Amazon and Jaguar Land Rover and existing investors such as Alstom and GE have also re-invested in the area.

# Population & Profile

► With a population of over a million and a population catchment of almost 3 million within a 45 minute drive time, employers benefit from access to a large pool of labour.

Stoke-on-Trent and Staffordshire has a population of over 1 million and a total population of 2.76 million people within a 45 minute drive time, providing employers with a large and sustainable pool of labour.

- The area's central UK geographic position and its excellent transport infrastructure means that Stoke-on-Trent and Staffordshire has a large catchment area. Over 2.7 million people live within a 45 minutes drive time of Stoke-on-Trent. This is a larger population catchment than for other cities including Glasgow, Edinburgh, Cardiff, Bristol and Newcastle.
- Stoke-on-Trent and Staffordshire has an economic activity rate that is slightly higher than that of the West Midlands as a whole.

- Unemployment levels (as measured by Claimant Count) vary across Stoke-on-Trent and Staffordshire. On average, Claimant Count levels in the area as a whole are lower than the average for both the UK and the West Midlands. The local unemployment level means that there is a sustainable pool of labour available to new companies locating to the area.

- The Make it Stoke-on-Trent and Staffordshire Team supports companies in working with Staffordshire University and Keele University to access support for graduate recruitment as well as for developing R&D linkages. This includes Knowledge Transfer Partnerships which provides funding for accessing university based skills and expertise. This can be for a range of areas including product development and improvements.
